

**BECOME A  
WATER  
EXPERT!**

Immerse yourself in the pure joy of life  
Innovative Grünbeck technology for private swimming pools

grünbeck

# Grünbeck makes water a pure pleasure.

*Out of responsibility for your health and property.*

The sun is shining, the pool is beckoning. Immerse yourself in the good feeling of enjoying top water quality. Grünbeck's innovative swimming pool technology maintains your valuable assets: the recreational value of your home and the value of your safety. We want you to enjoy your pool with overflow channel or skimmer for many years. This is why we provide excellent water purity by means of sustainable and highly reliable solutions.

**With reliable Grünbeck technology for:**

- Pools with skimmer systems
- Pools with overflow systems

# Your attitude to life: Premium. Your water filtration: Ultra.

Grünbeck is the relaxation and enjoyment guaranty for your pool as we reliably filter killjoys from the water. Germs, for instance, and suspended solids. Our new, highly efficient ultrafiltration system spaliQ:UF150 ensures your ultimate bathing pleasures. It adapts to your demand as unobtrusively and reliably as good domestic staff and automatically ensures that you can relax undisturbed.

On behalf of your most enjoyable bathing pleasures.

The new ultrafiltration system spaliQ:UF150: extraordinarily pure water quality for private swimming pools and whirlpools

### Advantages of the ultrafiltration system spaliQ:UF150

- Membrane cut-off of 0.02 µm
- 99.99 % retention of viruses, bacteria and parasites (sand filter approx. 30 %)
- Pre-assembled treatment technology
- Control/operation feasible via iPad
- Internal data logging
- Low chlorine consumption
- Unique filtrate and disinfection backwash
- Constant capacity (frequency-controlled)
- Automatic integrity test, lowering of water level at night (optional)

Convenient control/operation via iPad

# Experience the best side of water.

Crystal-clear, soft water on your skin, reliable purity and freshness. Plunging into your own pool is simply incredible. Grünbeck makes sure that you can rely on this at all times. Your Grünbeck filter system incorporates the concentrated expertise that makes us a leading water expert. Thus, it is particularly easy for you to enjoy excellent water purity every day. Operation and control? Child's play! Even nature takes pleasure in your pool as Grünbeck focuses on efficiency and eco-friendly processes.

The best water quality for any pool size.

**GENO-mat® F 500 HK**  
Manual filter system with heat exchanger  
(for pool volumes up to 35 m<sup>3</sup>)

**GENO-mat® F 600 AK**  
Fully automatic filter system with heat exchanger  
(for pool volumes up to 70 m<sup>3</sup>)

**GENO-mat® F 610 A**  
Automatic filter system  
(for pool volumes up to 100 m<sup>3</sup>)

## First-class water purity non-stop.

Enjoy refreshing yourself quite spontaneously. The water quality is excellent at any time. This is what Grünbeck technology makes sure of. The automatic measuring and control system permanently checks and adjusts the water values. If required, the pH value and the disinfection are adjusted by the addition of efficient care products and/ or by UV support. All this takes place in the background, leaving you free to take care of more important matters – such as the question whether you would rather like to do a lap of breaststroke or backstroke.

### Interconnected water expert.

The automatic measuring and control system GENO®-CPR-tronic 02 family takes care of measuring and controlling the pH value and the degree of disinfection in your pool.

### Convenient communication.

Always be informed via the touch panel: it acts as remote control and indicator for all important swimming pool parameters and interconnected components of the measuring and control system GENO®-CPR-tronic 02 family as well as the filter controller GENO®-BW-tronic.

## Only the best of water for you.

Grünbeck only needs a few care products to ensure perfect water purity. True to our motto: as little as possible and as much as necessary. You would like to get more detailed information on swimming pool care? Ask your Grünbeck expert. He will also let you know how to turn your pool into an adventure pool – for instance with a counter-current system by Grünbeck, revitalising wide or neck shower jets, massage jets, air-bubble systems or as a visual highlight: underwater spotlights for a spectacular bathing ambiance.

**Grünbeck: All that water  
purity needs.**

- Pool test for manual measurements
- Care products
